Parents, Your Role in Interscholastic Athletics

Communicating With Your Children

- Make sure your children know that win or lose, scared or heroic, you love them, appreciate their efforts and are not disappointed in them. This will allow them to do their best without fear of failure. Be the person in their life they can look to for constant positive reinforcement.
- Try your best to be completely honest about your child's athletic ability, competitive attitude, sportsmanship and actual skill level.
- Be helpful but don't coach them. Can be difficult for child to be flooded with advice and critical instruction.
- Teach them to enjoy the thrill of competition and the hard work it takes to improve their skills and attitudes.
- Try not to relive your athletic life through your child in a way that creates pressure.

- Children need their parents at all times, so do not withdraw when they are struggling. If they are comfortable with you win or lose, then they are on their way to maximum enjoyment.
- Don't compete with the coach. If children receive mixed messages from different authority figures, they may become disenchanted.
- Don't compare the skill, courage or attitude of your child with other members of the team.
- Get to know the coach. Then you can be assured that the philosophy, attitude, ethics and knowledge are such that you are happy to have your child under the coach's leadership.
- Remember that children tend to exaggerate, both when praised and criticized. Temper your reaction and investigate before overreacting.

Communicating With The Coach

Communication You Should Expect From Your Child's Coach:

- Philosophy of the coach
- Expectations of team members
- Time and Location of all practices and contests
- Team requirements (fees, equipment, off-season conditioning)
- Procedures for injuries
- Discipline that results in your child's denial to participate

Communication Coaches Expect From Parents:

- Notification of all schedule conflicts in advance.
- Issues in personal life that may affect student.

Appropriate Concerns To Discuss with Coaches

- The treatment of your child, mentally and physically
- Ways to help your child improve
- Concerns about your child's behavior

Issues Not Appropriate To Discuss With Coaches

- Playing Time
- Team Strategy
- Play Calling
- Other student-athletes

Appropriate Procedure For Discussing Concerns With Coaches

- Call to set up an appointment with the coach (contact athletic administrator if unable to reach the coach)
- Do not confront a coach before or after a contest or practice (these can be emotional times for all parties involved)

What If the Meeting With The Coach Did Not Provide A Satisfactory Resolution

Call to set up an appointment with the athletic administrator.
Determine the appropriate next step

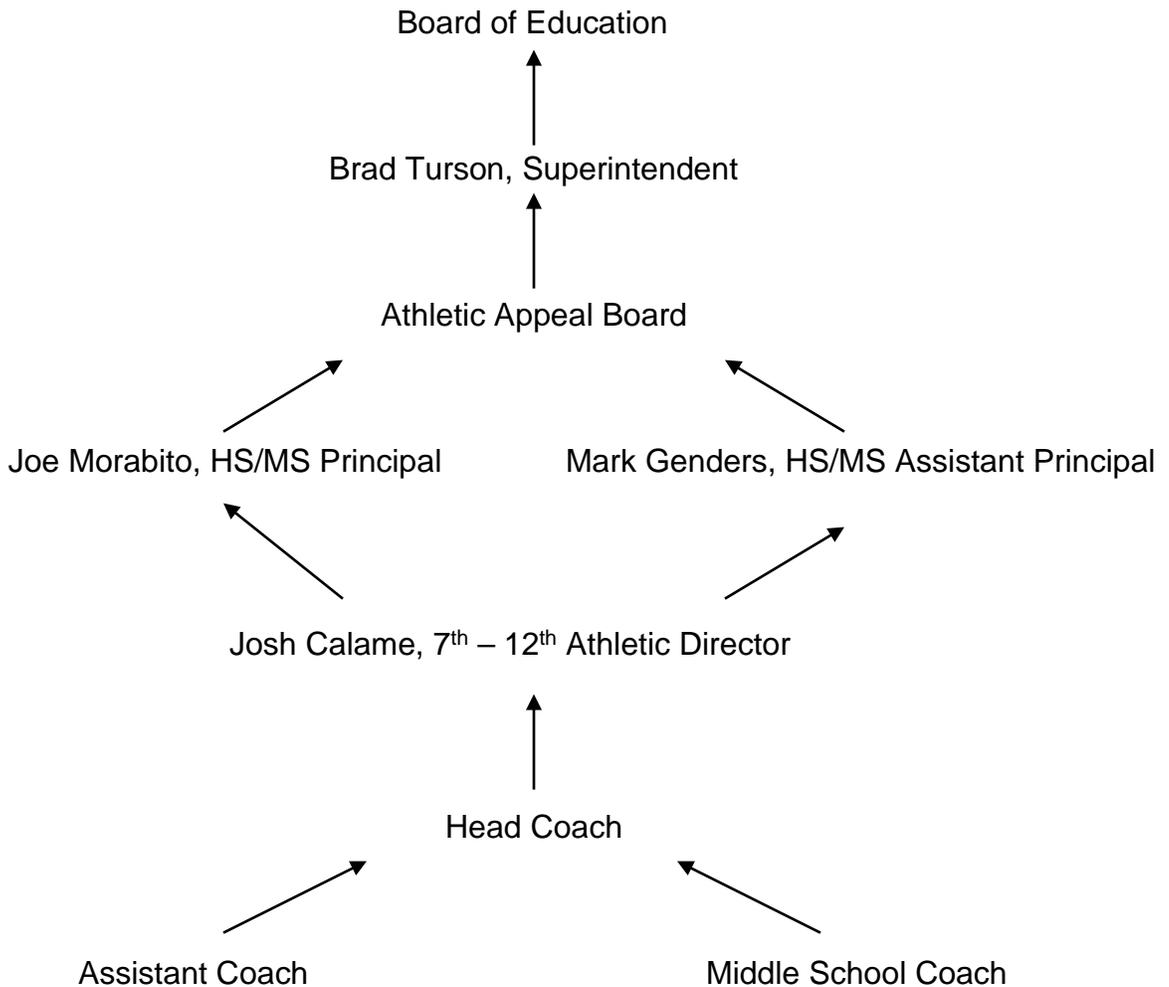

COMMUNICATION CHAIN OF COMMAND

Communication is the key to being successful in any endeavor. Many times problems may arise where a simple discussion may solve the problem. We urge you to see the appropriate people when an issue arises concerning your child.

Meetings with coaches should be set up at an appropriate time, but not immediately before or after a game or contest. The athletic director should be involved in all meetings between coaches and parents when possible.

Four issues that will never be discussed: playing time, team strategy, play calling and other student athletes. Coaches will discuss what your son or daughter needs to do to improve themselves and help the team be more successful.

Please see the flow chart below to help you determine with whom to speak to.

ATHLETIC CONTROL BOARD

The Athletic Control Board is an advisory group that will have direct communication with Athletic Director, Principals, and Superintendent. It will make recommendations on matters relative to interscholastic athletics, its philosophy, its policies, and its awards system.

The Plymouth-Shiloh Athletic Control Board provides a consistent and coordinated direction for the interscholastic athletic program in the Plymouth-Shiloh School District. This Board works with issues related to the athletic program, philosophy and policies.

The Athletic Control Board shall be made up of the following:

Superintendent	Middle School Principal
Board of Education Member	Athletic Director
High School Principal	All Head Coaches

The Athletic Control Board will meet a minimum of 2 times a year.

The athletic programs in the Plymouth-Shiloh Schools, grades seven through twelve, are subject to the jurisdiction of the Athletic Control Board.

LEVELS OF COMPETITION

Varsity

The perfection of skill, playing the best overall athletes possible and winning is the emphasis at this level. While winning at all costs will never be a part of our philosophy, no apology shall be necessary when the varsity team does all it can within the bounds of ethics, integrity, and sportsmanship to win each and every contest. In certain sports, cutting may be used and it is extremely likely that some players may not see action in each contest.

Junior Varsity

This level of competition begins to focus on skill refinement and winning as a team. Cutting may occur at this level in certain sports. It is possible that not every player will have the opportunity to play in every contest.

Freshman

Emphasis at the freshman level is on participation, skill development and team success. If a sports program supports a freshman squad, efforts will be made not to cut players at this level, as the future ability of these students is largely uncertain. Attempts will be made to play as many students as possible during each contest while striving for victory for the entire team.

Middle School

Preferably, two teams will be created at the middle school level in each sport; at the 7th grade and the 8th grade levels. If low numbers make this impossible, combining all 7th and 8th grade students will create a single middle school team. Emphasis at this level is on individual participation along with team success. Every attempt will be made to encourage student participation including attempts to play each student in every contest while also ensuring success for the entire team.

On the day of the ejection, a coach who has been disqualified shall be ejected from the vicinity of the playing area and prohibited from further contact, direct or indirect, with team managers and other coaches during the remainder of the contest. The coach must return to the locker room or team bus or leave the premises. The coach shall not go to the spectator area.

When the athlete has been a victim of an injury, which, in the opinion of the parents, does not require professional medical attention, that athlete will not be permitted to return to practice or participation until a written permission from his/her parents is received by the head coach.

After the form has been signed by an administrator, the head coach must receive the form, sign it, and keep it on file. The punishment will depend on the severity of the violation and will be at the discretion of the Athletic Director and/or Principal.

P. Conflicts in Activities

Plymouth-Shiloh students are encouraged to participate in a wide range of activities, but are warned about taking on too much for their own good. Students who choose to become active in numerous activities must recognize that the potential for numerous conflicts. Students are reminded that by joining a Plymouth-Shiloh team, they are making the commitment to the school and their classmates in regard to all practices and/or contests.

For the purpose of eliminating potential scheduling conflicts and resolving them in a positive and productive manner without the student being placed in the center of the dispute, the following guidelines are to be followed whenever a schedule conflict occurs:

- a. All performance activities, competitions, trips, conventions, etc. must be placed on the District calendar as soon as they are scheduled to notify all of potential conflicts.
- b. Any formal performance (game, contest, tournament, etc.) takes precedence over a practice activity.
- c. Any activity that counts toward a classroom grade will have precedence.

- e. If a schedule conflict still exists, the coach(es), advisors and/or directors involved will resolve the conflict by utilizing an equal sharing of the student's time. This can be accomplished by sharing of time on a given day or alternating days of attendance at the given activities.

At no time will there be negative consequences for a student who finds him/herself in an activity conflict given that he/she has followed the directions provided by the advising authority.

Any form of dress or grooming that attracts undue attention or violates the previous statement is unacceptable.

R. Inclement Weather Policy

The Plymouth-Shiloh's Local School's policy in regard to contests and practices conducted on days when school has been canceled is delineated below. First and foremost, Plymouth-Shiloh is concerned about the safety of its students, employees and community members. Factors that contribute to the cancellation of classes are varied and require evaluation of circumstances that may change significantly between 6:00am and 2:00pm.

When school is closed due to factors other than inclement weather, such as maintenance breakdowns or other extraordinary events, all contests and practices may be conducted as usual, provided that consideration is made for participant safety. When school is closed due to weather-related conditions like snow or ice, the following policy will be employed:

A pregnant student may not participate in any manner until such a physician's statement is provided to the AD.

T. Vacation Policy

Students are highly discouraged from partaking in vacations during the sports season. Those wishing to take vacations during their season of participation may wish to reassess their commitment to the team. In the event of an unavoidable vacation conflict, a student must notify their Head Coach well in advance of the vacation and be prepared to assume the consequences of their actions. Missing any portion of the season will have an adverse effect on their team status, *including playing time and award status*. No student choosing to take a vacation during the season should expect to return to the team without having to earn his or her position back.

DENIAL OF PARTICIPATION

Students violating the Student Athlete Code of Conduct may be denied the privilege of participation in athletics in accordance with the procedures outlined below.

GENERAL SPORTS GUIDELINES

SQUAD LIMITATION

In some sport activities offered by the Plymouth Athletic Department, squad limitation does become necessary. Maximum participation has always been the general philosophy of the Plymouth Athletic Department. The Athletic Department guarantees that every interested student will have the opportunity to compete for primary and/or supporting positions.

The determination and selection for such positions shall be the right and responsibility of the coach of that activity within the true spirit of the concept of maximum participation. The determination and selection will be based upon good evaluation and fair judgment, which must be apparent in the qualification of the selected individuals in charge.

Every student has the opportunity to participate in the competition for such positions. If after evaluation it becomes necessary to cut an athlete from a squad, that individual may have the benefit of a personal conference with the coach and will be informed as to why he/she did not make the team. A team will have three days of tryouts before cuts will be made (exception: cheerleading tryouts).

DUAL SPORT

Student athletes may participate in two sports during a given season under the following conditions:

1. The student athlete must declare their major sport within the first five (5) days of official practice.
2. The coaches of the two sports must agree to allow the athlete to dual sport.
3. An athlete may not change his/her major sport once declared.
4. Athletes and parent(s)/guardian(s) are responsible to set up a group meeting, with both head coaches present, to discuss expectations of the athlete.
5. Coaches will mutually agree when an athlete will practice and participate in contests with each team.
6. If one of the teams does not have practice or a contest on a given day, the athlete is required to attend the other teams practice or contest.
7. Only a parent/guardian may transport the student athlete to a contest if unable to ride the school bus. A transportation waiver must be signed by the parent for each contest.
8. No matter the level of competition, the athlete is eligible to earn school awards in both sports, if they finish each season in good standing.

OUT OF SEASON CONDITIONING/LIFTING/OPEN GYM REGULATIONS

All students are encouraged to participate in non-mandatory out of season conditioning/lifting/open gyms to improve their skills and abilities. When an athlete is participating on a sports team that is currently in-season they have made a commitment to that team for the entire season. Students that are on a team that is in-season are prohibited from participating in “off-season” **team** workouts, open gyms, shootouts, etc. of another school-sponsored team. This policy does not prohibit students from taking part in **individual skill development** (i.e. hitting, pitching, shooting, etc.) at open gym opportunities. In the spirit of this policy, Head Coaches involved will meet to determine what, if any, activities the student in question can participate in, with the in-season coach having preference. Coaches will make every attempt to schedule “off season” activities at times that will not interfere with in-season sports and/or athletes. All student-athletes are encouraged to lift year round when capable but are highly encouraged to refrain from lifting on a game day when participating in an in-season sport.

PLYMOUTH-SHILOH LOCAL SCHOOLS ALCOHOL, DRUG, AND TOBACCO TESTING OF STUDENTS IN INTERSCHOLASTIC ATHLETICS

The Board recognizes the interscholastic athletic program is an integral part of the entire educational program. Through participation in interscholastic athletics, students are provided an opportunity for educational and character-building experiences. The Board also realizes that an athlete who is involved with drugs places himself/herself at a heightened risk of physical harm by participating in the district's athletic program.

The athlete assumes responsibility for regulating his/her personal life in ways that will make him/her an efficient member of a team and worthy representative of his/her school. Alcohol, Drug, and Tobacco use/abuse by student athletes is a major detriment to these goals. The Board believes a testing program will help encourage students who want to participate in interscholastic athletics remain drug free.

Interscholastic athletes must participate in the alcohol, drug, and tobacco testing program. Prior to testing of an athlete, the athlete and the parent(s) guardian must sign a form consenting to the alcohol, drug, and tobacco testing. Failure to do so will result in the student being denied participation in athletics. Each season an equal percentage of high school male and female athletes may be tested. The number of high school athletes chosen for testing will be a minimum of sixty per year. An equal percentage of middle school male and female athletes may be tested each month. The number of middle school athletes chosen for testing will not exceed ten. All tests shall be conducted outside the school day. Only in season athletes will be tested.

In addition to random selection a student athlete can be tested upon the request of a parent or legal guardian. These requests will not affect the normal random process or the determined numbers.

No student/athlete will be penalized academically for testing positive for drugs as defined in this policy. The results of drug tests pursuant to this policy will not be documented in any student's academic records. Information regarding the results of the drug test will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid subpoena or other legal process which the Plymouth-Shiloh Local School District Board of Education will not solicit. In the event of service of such subpoena or legal process, the student and the student's parent/guardian/custodian will be notified at least 72 hours before the response is made by the Plymouth-Shiloh Local School District Board of Education to the extent permitted by such subpoena or legal process.
