

SEAMLESS SUMMER OPTION

The Ohio Department of Education along with the USDA have extended the Seamless Summer Option Meal Program until December 30, 2020 OR until funding is no longer available. Under this program, the district is able to provide meals free of charge to all students enrolled in the district and attending classes in person.

Effective September 8, 2020 the district will provide meals to all students attending in-person. This program will be offered until the end of the Seamless Summer Option extension, which is December 30, 2020, OR until the program is ended by The Ohio Department of Education.

Any "extras", a la carte or second meal, that the student wishes to add to their first federally reimbursable lunch will still have a cost associated with it.

Parents who have already loaded meal money into their student accounts can still use those dollars for extras or when the program is discontinued.

Families are still requested to complete free and reduced meal applications in the event the program is discontinued earlier than anticipated or in the preparation for the resumption of the normal school lunch program on January 1, 2021.

Thank you!
