Firelands Conference Sportsmanship Policy

SECTION ONE

The following are **ACCEPTABLE BEHAVIORS** at an athletic contest in the Firelands Conference:

As a spectator, I will

- Cheer for my team, not against my opponent.
- Not use profane or inappropriate language.
- Treat the game as a game not a war.
- Lead positive cheers in a positive manner.
- Applaud the efforts of both teams at games end.
- Show concern for an injured player regardless of team.
- Demand sportsmanlike behavior from those fans near me.
- Depart the game in a dignified and ethical manner.
- Respect the official's judgment at all times.
- Understand that my admission does not excuse my behavior.

The following are considered **UNACCEPTABLE BEHAVIORS** and **SUBJECT TO SANCTION** ranging from **WARNINGS** to **DISMISSAL** and **SUBSEQUENT SUSPENSION FROM ATTENDANCE.**

As a spectator, I will **NOT**

- Use profanity, taunt, trash talk, or heckle our opponents, and coaches, the officials, our team and coaches, or other spectators.
- Wear derogatory or offensive attire.
- Enter the playing surface before, during or after the contest.
- At any time throw any objects or projectiles.

SECTION TWO

Any violation of the conference sportsmanship policy can result in a series of consequences from verbal warnings to ejections or dismissal by school personnel, officials, administrators or police.

An **EJECTION** or **DISMISSAL** from **ANY** Firelands Conference contest will result in a minimum **1 WEEK BAN** from **ALL** Conference events (Home or Away) at **ALL** levels of play (Junior High and High School).

Enforcement of a fan suspension is the responsibility of the school issuing the suspension.

FAN EXPECTATIONS

It is the expectation of the Board of Education that all spectators demonstrate sportsmanship towards players, coaches, game officials, and other fans.

Examples of unacceptable behavior include but are not limited to the following:
Threatening actions or verbal abuse of players, fans, coaches, and game officials;

unauthorized entry onto the playing area, team bench area or locker room; throwing objects, or disrespect toward anyone.

Unacceptable fan behavior will result in the fan's removal and a denial of admission to future contests for at least two weeks and a minimum of two athletic contests.

A fan that uses physical assault at an athletic contest will be prosecuted and denied admission to all future contests until he/she is reinstated by the District Superintendent.

An athletic contest is not a place for alcoholic beverages. People wishing to drink or those obviously under the influence of alcohol will be asked to leave the premises.

LEVELS OF COMPETITION

Varsity

The perfection of skill, playing the best overall athletes possible and winning is the emphasis at this level. While winning at all costs will never be a part of our philosophy, no apology shall be necessary when the varsity team does all it can within the bounds of ethics, integrity, and sportsmanship to win each and every contest. In certain sports, cutting may be used and it is extremely likely that some players may not see action in each contest.

Junior Varsity

This level of competition begins to focus on skill refinement and winning as a team. Cutting may occur at this level in certain sports. It is possible that not every player will have the opportunity to play in every contest.

Freshman

Emphasis at the freshman level is on participation, skill development and team success. If a sports program supports a freshman squad, efforts will be made not to cut players at this level, as the future ability of these students is largely uncertain. Attempts will be made to play as many students as possible during each contest while striving for victory for the entire team.

Middle School

Preferably, two teams will be created at the middle school level in each sport; at the 7th grade and the 8th grade levels. If low numbers make this impossible, combining all 7th and 8th grade students will create a single middle school team. Emphasis at this level is on individual participation along with team success. Every attempt will be made to encourage student participation including attempts to play each student in every contest while also ensuring success for the entire team.

Parents,

Your Role in Interscholastic Athletics

their efforts and are not disappointed in them. This will allow them to do their best without fear of failure. Be the person in their life they can look to for constant positive reinforcement.

Communicating With Your Children

- Make sure your children know that win or lose, scared or heroic, you love them, appreciate

- Try your best to be completely honest about your child's athletic ability, competitive attitude, sportsmanship and actual skill level.
- Be helpful but don't coach them. Can be difficult for child to be flooded with advice and critical instruction.
- Teach them to enjoy the thrill of competition and the hard work it takes to improve their skills and attitudes.
- Try not to relive your athletic life through your child in a way that creates pressure.
- Children need their parents at all times, so do not withdraw when they are struggling. If they are comfortable with you win or lose, then they are on their way to maximum enjoyment.
- Don't compete with the coach. If children receive mixed messages from different authority figures, they may become disenchanted.
- Don't compare the skill, courage or attitude of your child with other members of the team.
- Get to know the coach. Then you can be assured that the philosophy, attitude, ethics and knowledge are such that you are happy to have your child under the coach's leadership.
- Remember that children tend to exaggerate, both when praised and criticized. Temper your reaction and investigate before overreacting.

Communication You Should Expect From Your Child's Coach:

- Philosophy of the coach
- Expectations of team members
- Time and Location of all practices and contests
- Team requirements (fees, equipment, off-season conditioning)
- Procedures for injuries

- Discipline that results in your child's denial to participate

Communication Coaches Expect From Parents:

- Notification of all schedule conflicts in advance.
- Issues in personal life that may affect student.

Appropriate Concerns To Discuss with Coaches

- The treatment of your child, mentally and physically
- Ways to help your child improve
- Concerns about your child's behavior

Issues Not Appropriate To Discuss With Coaches

- Playing Time
- Team Strategy
- Play Calling
- Other student-athletes

Appropriate Procedure For Discussing Concerns With Coaches

- Call to set up an appointment with the coach (contact athletic administrator if unable to reach the coach)
- Do not confront a coach before or after a contest or practice (these can be emotional times for all parties involved)

What If the Meeting With The Coach Did Not Provide A Satisfactory Resolution

Call to set up an appointment with the athletic administrator. Determine the appropriate next step.

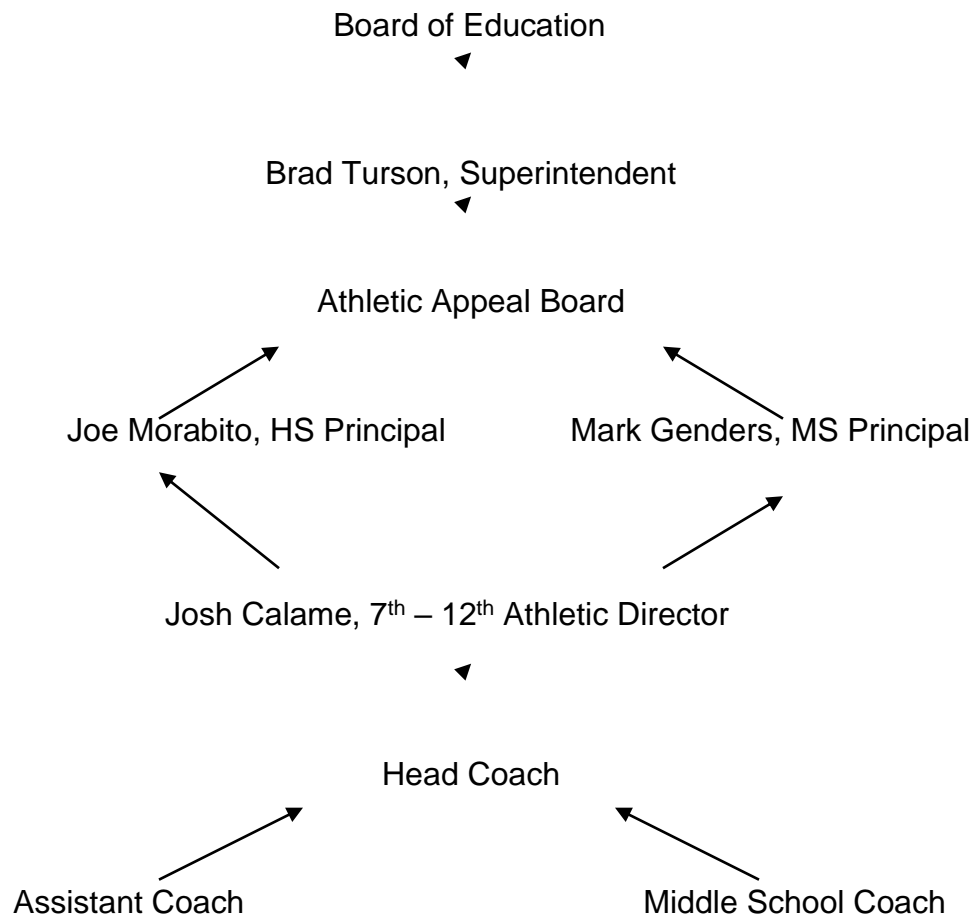

COMMUNICATION CHAIN OF COMMAND

Communication is the key to being successful in any endeavor. Many times problems may arise where a simple discussion may solve the problem. We urge you to see the appropriate people when an issue arises concerning your child.

Meetings with coaches should be set up at an appropriate time, but not immediately before or after a game or contest. The athletic director should be involved in all meetings between coaches and parents when possible.

Four issues that will never be discussed: playing time, team strategy, play calling and other student athletes. Coaches will discuss what your son or daughter needs to do to improve themselves and help the team be more successful.

Please see the flow chart below to help you determine with whom to speak to.

- a. All performance activities, competitions, trips, conventions, etc. must be placed on the District calendar as soon as they are scheduled to notify all of potential conflicts.
- b. Any formal performance (game, contest, tournament, etc.) takes precedence over a practice activity.
- c. Any activity that counts toward a classroom grade will have precedence.
- d. Precedence will be given to the activity where the student is an active participant versus one where he/she is basically a spectator.
- e. If a schedule conflict still exists, the coach(es), advisors and/or directors involved will resolve the conflict by utilizing an equal sharing of the student's time. This can be accomplished by sharing of time on a given day or alternating days of attendance at the given activities.

At no time will there be negative consequences for a student who finds him/herself in an activity conflict given that he/she has followed the directions provided by the advising authority.

Q. Dress Code

Students participating in athletic workouts, summer leagues, practices, scrimmages, contests, etc., are expected to follow the basic principles of the District's Student Dress Code at all times, including that students shall not dress or appear in a fashion deemed inappropriate. Students may not dress in a fashion that either interferes with the student's health & welfare or that of other students, or causes disruption or directly interferes with the educational process of which athletics is a part. Any form of dress or grooming that attracts undue attention or violates the previous statement is unacceptable.

R. Inclement Weather Policy

The Plymouth-Shiloh's Local School's policy in regard to contests and practices conducted on days when school has been canceled is delineated below. First and foremost, Plymouth-Shiloh is concerned about the safety of its students, employees and community members. Factors that contribute to the cancellation of classes are varied and require evaluation of circumstances that may change significantly between 6:00am and 2:00pm.

When school is closed due to factors other than inclement weather, such as maintenance breakdowns or other extraordinary events, all contests and practices may be conducted as usual, provided that consideration is made for participant safety. When school is closed due to weather-related conditions like snow or ice, the following policy will be employed:

- b. High School activities may be conducted provided no punitive measures are taken against students whose parent/guardian(s) prohibit him/her from attending.
- c. No athletic activity of any kind will take place prior to 2:00pm.
- d. A travel advisory of "Level 2" or worse will result in the automatic postponement and/or cancellation of practice or contests.
- e. Head Coaches must obtain permission to conduct practice activities from the Athletic Director, Principal, and/or Superintendent based on projected travel conditions during the activity time.
- f. Decisions in regard to contests will be made as late in the day as possible in consultation with the opponent school's administration.

S. Pregnancy Policy

A pregnant student may participate in an athletic program only if a physician certifies in writing that the student is physically able to participate in specific events or activities. This statement shall serve as medical clearance and assumption of responsibility and liability for the pregnant student's participation. A pregnant student may not participate in any manner until such a physician's statement is provided to the AD.

T. Vacation Policy

Students are highly discouraged from partaking in vacations during the sports season. Those wishing to take vacations during their season of participation may wish to reassess their commitment to the team. In the event of an unavoidable vacation conflict, a student must notify their Head Coach well in advance of the vacation and be prepared to assume the consequences of their actions. Missing any portion of the season will have an adverse effect on their team status, *including playing time and award status*. No student choosing to take a vacation during the season should expect to return to the team without having to earn his or her position back.

DENIAL OF PARTICIPATION

Students violating the Student Athlete Code of Conduct may be denied the privilege of participation in athletics in accordance with the procedures outlined below.

- a. All students shall, at the beginning of the sports season, receive a copy of the Plymouth-Shiloh Student Athlete Handbook and any specific rules and regulations for the sport involved.
- b. The athlete will have a meeting with the Principal, Athletic Director and Head Coach and be given written notice of the intent to deny him/her participation stating the reasons.
- c. Parent(s)/Guardian(s) will be notified through a phone call and letter.
- d. When academically ineligible or denied participation, student athletes may practice and travel with the team at the individual coach's discretion. However, under no circumstances may the student dress for a contest, or be on the sideline.

APPEALS PROCEDURE

The student athlete may appeal the decision of the Principal/Athletic Director to the Athletic Appeal's Board. This Board shall consist of 2 district Principals, the Superintendent, a School Board Member to the Athletic Control Board, and Athletic Director. The appeal will require the following:

- a. Notify the Principal in writing within 72 hours of the initial ruling.
- b. The student, along with representation, shall have the opportunity to appear before the Appeal's Board.
- c. After consideration of all information, the Appeals Board shall decide whether the student should be exonerated, receive a modification of punishment, or denied participation as originally defined.
- d. The decision of the Appeal's Board will be communicated, in writing, by the principal within 48 hours to the student and his/her parent(s)/guardian(s).
- e. The decision of the Appeals Board may be appealed to the Board of Education, for final determination, within 72 hours of receiving the decision. The review may be scheduled by submitting a written request to the Superintendent.
- f. The superintendent shall schedule the hearing with the Board of Education and determine the procedures to be followed.

GENERAL SPORTS GUIDELINES

SQUAD LIMITATION

In some sport activities offered by the Plymouth Athletic Department, squad limitation does become necessary. Maximum participation has always been the general philosophy of the Plymouth Athletic Department. The Athletic Department guarantees that every interested student will have the opportunity to compete for primary and/or supporting positions.

The determination and selection for such positions shall be the right and responsibility of the coach of that activity within the true spirit of the concept of maximum participation. The determination and selection will be based upon good evaluation and fair judgment, which must be apparent in the qualification of the selected individuals in charge.

Every student has the opportunity to participate in the competition for such positions. If after evaluation it becomes necessary to cut an athlete from a squad, that individual may have the benefit of a personal conference with the coach and will be informed as to why he/she did not make the team. A team will have three days of tryouts before cuts will be made (exception: cheerleading tryouts).

DUAL SPORT

Student athletes may participate in two sports during a given season under the following conditions:

1. The student athlete must declare their major sport within the first five (5) days of official practice.
2. The coaches of the two sports must agree to allow the athlete to dual sport.
3. An athlete may not change his/her major sport once declared.
4. Athletes and parent(s)/guardian(s) are responsible to set up a group meeting, with both head coaches present, to discuss expectations of the athlete.
5. Coaches will mutually agree when an athlete will practice and participate in contests with each team.
6. If one of the teams does not have practice or a contest on a given day, the athlete is required to attend the other teams practice or contest.
7. Only a parent/guardian may transport the student athlete to a contest if unable to ride the school bus. A transportation waiver must be signed by the parent for each contest.

8. No matter the level of competition, the athlete is eligible to earn school awards in both sports, if they finish each season in good standing.

20

OUT OF SEASON CONDITIONING/LIFTING/OPEN GYM REGULATIONS

All students are encouraged to participate in non-mandatory out of season conditioning/lifting/open gyms to improve their skills and abilities. When an athlete is participating on a sports team that is currently in-season they have made a commitment to that team for the entire season. Students that are on a team that is in-season are prohibited from participating in “off-season” **team** workouts, open gyms, shootouts, etc. of another school-sponsored team. This policy does not prohibit students from taking part in **individual skill development** (i.e. hitting, pitching, shooting, etc.) at open gym opportunities. In the spirit of this policy, Head Coaches involved will meet to determine what, if any, activities the student in question can participate in, with the in-season coach having preference. Coaches will make every attempt to schedule “off season” activities at times that will not interfere with in-season sports and/or athletes. All student-athletes are encouraged to lift year round when capable but are highly encouraged to refrain from lifting on a game day when participating in an in-season sport.

CONCUSSION PROTOCOL

Concussions are a trauma to the brain due to forces to the head, such as a direct blow to the head, face or neck and can occur with head on head contact, or simply bumping of the head. Although trauma to the brain cannot be seen like a bruise elsewhere on the body, it must be treated with much more precaution. When an athlete gets a concussion the brain becomes bruised and therefore a multitude of signs and symptoms, if not noticed could cause severe harm and long-term effects to the athlete.

The athlete needs to take precaution when doing activities that involve thinking and the use of the brain. The athlete should decrease the amount of reading, studying, video games and texting and should be continually be monitored for the next 24-48 hours after the injury. If the symptoms of a concussion do not get any better or worsen the athlete needs to get to the emergency room for further evaluation. **DO NOT** allow the athlete to take aspirin or Tylenol during the initial period.

Signs/Symptoms

- | | | |
|--------------------------------|---------------------|-------------------------|
| - dazed/confused | - loss of memory | - headache |
| - nausea/vomiting | - mood changes | - ringing in ears |
| - slurred speech | - increased fatigue | - trouble concentrating |
| - sensitive to light and noise | | |

Any student, while practicing for or competing for an interscholastic contest, who exhibits signs, symptoms or behaviors consistent with having sustained a concussion or head injury shall be immediately removed from the practice or contest by either the coach or official.

Return to Play Protocol

If a student is removed from practice or competition due to a suspected concussion or head injury, the coach or referee shall not permit the student, **ON THE SAME DAY THE STUDENT IS REMOVED**, to return to that practice or competition or to participate in any other practice or competition. Thereafter, which means no earlier than the next day, the coach OR referee shall not permit the student to return to practice or competition until both of the following conditions are satisfied:

1) The student's condition is assessed by either of the following:

- a. A physician, authorized under Chapter 4731 of the Ohio Revised Code to practice medicine and surgery or osteopathic medicine of surgery (M.D. or D.O.)
- b. Any other licensed health care provider that the school district board of education authorizes to assess the student who has been removed from practice or competition.

2) The student receives **written authorization** that it is safe for the student to return to practice or competition from a physician or other licensed health care provider authorized to grant the clearance.

**PLYMOUTH-SHILOH LOCAL SCHOOLS
ALCOHOL, DRUG, AND TOBACCO TESTING OF STUDENTS
IN INTERSCHOLASTIC ATHLETICS**

The Board recognizes the interscholastic athletic program is an integral part of the entire educational program. Through participation in interscholastic athletics, students are provided an opportunity for educational and character-building experiences. The Board also realizes that an athlete who is involved with drugs places himself/herself at a heightened risk of physical harm by participating in the district's athletic program.

The athlete assumes responsibility for regulating his/her personal life in ways that will make him/her an efficient member of a team and worthy representative of his/her school. Alcohol, Drug, and Tobacco use/abuse by student athletes is a major detriment to these goals. The Board believes a testing program will help encourage students who want to participate in interscholastic athletics remain drug free.

Interscholastic athletes must participate in the alcohol, drug, and tobacco testing program. Prior to testing of an athlete, the athlete and the parent(s) guardian must sign a form consenting to the alcohol, drug, and tobacco testing. Failure to do so will result in the student being denied participation in athletics. Each season an equal percentage of high school male and female athletes may be tested. The number of high school athletes chosen for testing will be a minimum of sixty per year. An equal percentage of middle school male and female athletes may be tested each season. The number of middle school athletes chosen for testing will not exceed ten per season. All tests shall be conducted outside the school day. Only in-season athletes will be tested.

In addition to random selection, a student athlete can be tested upon the request of a parent or legal guardian. These requests will not affect the normal random process or the determined numbers.

No student/athlete will be penalized academically for testing positive for drugs as defined in this policy. The results of drug tests pursuant to this policy will not be documented in any student's academic records. Information regarding the results of the drug test will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid subpoena or other legal process which the Plymouth-Shiloh Local School District Board of Education will not solicit. In the event of service of such subpoena or legal process, the student and the student's parent/guardian/custodian will be notified at least 72 hours before the response is made by the Plymouth-Shiloh Local School District Board of Education to the extent permitted by such subpoena or legal process.

- E. Should the collection procedure change because of procedure requirements by the testing laboratory, the Board reserves the right to change the procedure to coincide with the guidelines established by the collection agency.

POSITIVE RESULTS AND VIOLATIONS

Whenever a student athlete's test indicates a positive result, the laboratory will confirm the result. The MRO will then notify the parent/guardian/custodian and the MRO will determine, based on the input of the parents, whether the positive results are a result of a prescription positive or the presence of illegal substances. Once the MRO has made a final determination as to whether the test is positive, the MRO will then provide the results of the positive test to the building principal.

All positive tests will be dealt with and subject to any of the violations and consequences as listed in the Student Athlete Code of Conduct.
